

## **Retraction notice to “Adsorption of cesium, thallium, strontium and cobalt radionuclides using activated carbon”\***

The Editorial Board of Journal of Atomic and Molecular Sciences, after being alerted that this article reproduced a substantial amount of verbatim text and figures from [Rivera-Utrilla, J., Ferro-Garcia, M. A., Mata-Arjona, A. and González-Gómez, C., Studies on the adsorption of caesium, thallium, strontium and cobalt radionuclides on activated carbons from aqueous solutions. *J. Chem. Tech. Biotechnol.*, 34 (1984), pp. 243–250. doi: 10.1002/jctb.5040340508 (“Wiley Work”)] without proper citation/acknowledgments, requested the retraction of the paper.
