Preface

This Vol. 30, No. 1, 2014 is a collection of survey papers and research articles coming from the plenary and session speakers of the ≪21th International Conference on Finite or Infinite Dimensional Complex Analysis and Applications (21th ICFIDCAA)≫, which was held at Nanjing University, Nanjing, China, June 15-19, 2013. More than 80 participants from 12 countries or regions have attended the meeting and about 50 participants given talks. All the survey papers and research articles peer reviewed and we thank the authors and referees for their contribution.

We would like to thank all the participants as well as the members of the International Advisory Board and Organizing Committee of the conference for their efforts in making this ICFIDCAA a successful meeting. Particular appreciations also extend to the Editorial Board of ATA for their invaluable editing and printing support.

The ICFIDCAA conference holds once every year in different countries. It initiated in Pusan National University of Korea in July 1993 organized by Joji Kajiwara from Kyushu University in Japan and Kwang Ho Shon from Pusan National University in Korea. The successive conferences were held in China, Japan, Korea, Vietnam and Thailand. Then the next conference (22nd ICFIDCAA) will be held in August, 8-11, 2014, at Dongguk University, Gyeongju, Korea. The website of the conference is `http://22.icfidcaa.org/`.
